Student Verification (UNCLEMIS) FAQ:

When do I run Student Verification (UNCLEMIS)?
Student Verification can be run at anytime. Student Verification is an ongoing process that should be run regularly throughout the year.

Why do I run Student Verification?
Student Verification finds EMIS reporting errors and helps you clean-up or perfect your data before transmitting data to ODE.

Does Student Verification fix the errors?
No, Student Verification only finds the errors. It is up to you to fix the errors and then run Student Verification again to verify the errors are no longer present.

Can Student Verification be run multiple times?
Yes, Student Verification can be run multiple times.

Can Student Verification be run from the building level as well as from the district and ITC levels?
Yes, depending on your security, Student Verification can be run at the district or building level. However, Student Verification can't be run at the ITC level. Please contact your District's Security Administrator if you have questions concerning your StudentInformation security role.

What is the difference between the three types of errors I see when I run Student Verification?
LCE: Checks options selected for a specific field validated against ODE's valid options defined in the EMIS Manual.
SMART: Checks the values for the student's EMIS Situation to make sure the student is coded correctly.
Student Verification: Checks the validity of certain field combinations.

8. Choose how many students you would like to see per page in the [Number of Students Per Page:] dropdown.
9. Leave the checkbox checked for the prompt to ignore any student overlapping admission history warnings: [Ignore "Student has overlapping admission history records" warning:]. By checking the box, this will exclude these errors from printing. (If you're a newly converted district, you will want to ignore these errors).
10. Click [Verify].
11. Once the process is complete the Student Verification errors will display on the page.

Appendix A: Admission History Errors (AH)

AH01W   Student does not have any Admission History Records for the Current School Year

Cause: The student can be found in the building but doesn't have an admission record for the current school year. One reason a student can be found in the current school year but has no record in admission history is the student was improperly summer withdrawn or whacked at the district level. All withdrawals or whacks must be done at the building level.

Solution: Navigate to *StudentInformation* » *SIS* » *Student* » *Admission History* » *Edit History Details* and verify the student doesn't have admission history for the school year in context. If indeed the student doesn't have an admission history record register the student. Please consult the *Admissions & Withdrawal Scenarios* document for detailed instructions on how to register a student.

AH02W   Student has Overlapping Admission History Records

Cause: The student has admission dates on the *Edit History Details* page that overlap. Example1: A student is withdrawn from one building using today's date and registered in the new building also using today's date.

		2014 - 2015		Intrabuilding Progression	Bowling Green Kenwood Elementary	DFLT	

Solution: Navigate to *StudentInformation* » *SIS* » *Student* » *Admission History* » *Edit History Details* and correct the student's admission date to the new building (Example1) or complete the withdrawal process from the building the student is no longer attending (Example2).

**The error can be ignored if the student is taking classes at more than one building in the district as long as they are on the default calendar at one building and the non-attending calendar at the other.

NOTE: Depending on when the student left the original building, the student may need whacked or summer withdrawn. Please consult the *Admissions & Withdrawal Scenarios* document for more details.

AH03W   Student Missing EMIS ID

Cause: In order for a student to be reported to EMIS, the student must have an EMIS ID. This is a separate ID from the student's SSID and social security number.

Solution: Enter the student's EMIS ID in the in the EMIS ID: 123456789 field on the FS-Standing tab of the student's profile.

NOTE: EMIS ID's may be auto-generated at time of student registration if the district sets a district EMIS Seed starting number on the School Demographics page at the district level.

Appendix B: FS-Standing Errors

FS01E　　FS Record(s) Missing

Cause: An FS Record was not created for the student.

Solution: Create an FS Record for the student on the [FS-Standing] tab, by clicking [New Student Standing] button and filling in all required fields based on the student's EMIS situation.

FS03E　　Invalid EMIS Situation Assigned to Student

Cause: The student is assigned an EMIS situation that is no longer in use.

Solution: Go to the student's [FS-Standing] tab and edit all the affected [FS-Standing] records and choose the correct EMIS Situation from the EMIS Situation: dropdown. Based on the EMIS Situation: chosen, checks on the page will guide you in filling out the remainder of the fields.

FS05E　　District of Residence IRN cannot be a non-public school IRN

Cause: The student has a non-public IRN specified in the District of Residence: value on the FS-Standing . The District of Residence IRN must always be the IRN of a public school district.

Solution: Find the IRN of the district the student resided in. Edit the affected FS-Standing records and correct District of Residence: .

FS06E　　If District Relationship = 1, then Percent of Time must be greater than 0 or Sent To Reason (1 or 2) must be PS, NP, or PI

Cause: The student's EMIS Situation: and District Relationship: indicate the student is attending full or part time. The student's Percent of Time: field on FS-Standing tab must be greater than 0.

Solution: Edit the student's incorrect FS-Standing record and update the student's Percent of Time: field to the correct value.

FS07E   If District Relationship = 2 or 3, then Percent of Time must be 0

Cause: The student's `EMIS Situation:` and `District Relationship:` indicate the student is not receiving instruction from the reporting district. The student's `Percent of Time:` must be zero.

Solution: Edit the student's incorrect `FS-Standing` record and update the student's `Percent of Time:` field to the correct value.

FS09E   If Sent To Reason 2 = NA, then Sent To IRN 2 must be ******

Cause: If the student isn't going onto a 2ⁿᵈ entity the `Sent To 2: Reason:` should be `NA - Not sent to another district (default)` on the `FS-Standing` tab. The `Sent To 2: IRN:` must be `******` and the `Sent To 2: Percent of Time:` must be zero.

Solution: Edit the affected `FS-Standing` records and correct the fields.

FS10E   If Sent to Reason 2 not = NA, then IRN Must be a Valid IRN or 999999

Cause: If the student has a `Sent To 2: Reason:` other than `NA - Not sent to another district (default)` on the `FS-Standing` tab of the student profile, the `Sent To 2: IRN:` field must be a valid IRN or 999999. The only time `Sent To 2: IRN:` can be `******` is when `NA - Not sent to another district (default)` is selected in the `Sent To 2: Reason:` dropdown.

Solution: Edit the affected FS records and correct the `Sent To 2: IRN:` .

FS12E   If Withdraw Reason = **, the Withdraw Date must be Blank

Cause: If a student is still active in the district and has never been withdrawn, they can't have a date in the **District Withdraw Date:** field on the **FS-Standing** tab.

Solution: Verify the student is not supposed to be withdrawn, edit the affected FS records and remove the **District Withdraw Date:** . Also check admission history to make sure an erroneous withdrawal date wasn't posted.

FS13E   If Withdraw Reason does not = **, the Withdraw Date must be Specified and be within the current fiscal year
Cause: The student has been withdrawn from the district and has a withdrawal reason selected in the **Withdraw Reason:** field but has no withdrawal date in the **District Withdraw Date:** field.
Solution: Verify the student is supposed to be withdrawn and that the district withdrawal shows on the student's ***Edit History Details*** page. Complete the district withdrawal process if the student hasn't been properly withdrawn. (See the ***Admissions & Withdrawal Scenarios*** document for detailed instructions.) If the withdrawal process has been completed and the withdrawal date still isn't appearing on the affected FS record, edit the affected FS record(s) and enter the withdrawal date in the **District Withdraw Date:** field.

FS14E   FS Record Admission does not have a Matching FD Record with the Same Effective Start Date

Cause: The original FS Record for the admission of the student located in the **FS-Standing** tab does not have a matching FD admission record. There needs to be matching records with the same effective start date for the admission on the **FS-Standing** tab and on the **FD-Attributes** tab.

Solution: The affected **FD-Attributes** record needs to be corrected to show the same **Effective Start Date:** for the admission record as what is on the **FS-Standing** tab.

FS15E FS Record with Withdraw Reason/Date does not have a matching FD record with the Effective End date = Withdraw Date

Cause: The student's `District Withdraw Date` on the `FS-Standing` record doesn't match the `District Withdraw Date:` field on the corresponding `FD-Attributes` tab.

Solution: The `District Withdraw Date:` field on the `FD-Attributes` tab is grayed out by design. When a student is withdrawn, the `District Withdraw Date:` field on the `FD-Attributes` tab is automatically populated based on the date used during the withdrawal process. Resave the FS record to correct the display on the FD tab.

FS17W   An EMIS District Withdraw does not have a Matching District Withdraw in Admission History

Cause: The student has a **District Withdraw Date:** on the **FS-Standing** tab, but there is no corresponding district withdraw date on the ***Edit History Details*** page.
